About Our Association

The South Carolina Health Care Association (SCHCA) was organized in 1955 as the statewide organization to represent member nursing homes. The association's name at that time was The South Carolina Association of Nursing Homes, Inc. The Association was chartered in October 1969 so that services to the membership could be expanded.

The association is composed of nursing homes providing professional long-term nursing care and representing approximately 18,000 nursing home beds licensed in the State of South Carolina.

In 2016 members of the Association voted to accept Assisted Living Facilities as full members of the Association.

As a professional association, the state office works closely with the General Assembly and the State and Federal agencies governing nursing home operations. The association staff coordinates state-wide programs, membership meetings, conventions, a trade show, monthly newsletter and a Buyer's Guide & Directory. The staff plans educational programs for Administrators, Nurses in Long Term Care, Activity Directors, Social Workers and other nursing home personnel.

In March, 1997 the Association formed South Carolina Health Care Services, Inc. as a service to its members and as a way to keep dues from increasing. This corporation was formed to provide group purchasing power for association members and today consists of a variety of products and services including incontinence products, wound care, food and dietary supplies, medical products and services, maintenance, office products, kitchen equipment and supplies, and capital equipment.

Our goal is to assist every member facility in providing the highest standard of patient care possible.
